O R D E R:

It has been suggested to Government that in the matter of appointment of District Boards who Licence Inspectors, persons in the employ of District Boards who possess Sanitary Inspectors qualification, such as Vaccinators, may be given preference. The Director of Public Health has issued instructions to the District Health Officers in his circular R.No.26204-E(1)46 dated 20-6-1946 that unless they can find qualified substitutes as Vaccinators to take up duties immediately, the existing staff of vaccinators should not be depleted by appointment as Licence Inspectors, panchayat board Sanitary Inspectors as temporary Sanitary Inspectors except in epidemic emergencies where no other qualified men are available. This circular was issued as the depletion of the strength of vaccinators resulted in a set back to vaccination work. The Government consider that vaccination work should not be allowed to suffer but that, in the interests of fit vaccinators and others who possess the sanitary inspectors qualification, and who have long been in service, the District Health Officers may in their discretion release them for appointment as Licence Inspectors provided that this can be done without detriment to vaccination.

2. Vaccinators are also eligible for appointment as sanitary inspectors and as Health Inspectors. In G.O.2895 P.H. dated 27-8-1947 the Government have relaxed the qualifications in favour of 61 vaccinators with a view to enable them to apply for recruitment as Health Inspectors until they complete the age of 45 years.

3. With reference to the application dated 14-7-47 of Sri S.M.Devanayagam, 1st class vaccinator, Melur Range, Madura District, the District Health Officer Madura may, in his discretion, recommend him for the post of Licence Inspector.
